DR. KENNETH ARGUE SPEAKS AT TEACHER

The annual convention of the Malbright Local of the Alberta frachers' Association was held in the Masonic Hall, Wainwright, Friday, November 5. Because of the shortened school year, teacher shortened school year, teacher of the convention was Mr. H. C. Coutts, the newly-appointed supervisor for the Wainwright Division. Mr. a Coutts outlined what he expects from him. He left no doubt that the schools of this area are fortunate to have a supervisor with his personal and professional qualifications.

The supervisor's address was was witten and Mrs. P. J. Wang-

ifications.

The supervisor's address was followed by a talk, 'Organizing the Rural School,' given by Mrs. D. Likness, of Metropolitan, Mrs. Likness made her talk helpful to those teachers who are this year entering the profession after a training period of only three months.

months.

The guest speaker for the day was Dr. Kenneth Argue, of the School of Education, University of Alberta. Dr. Argue discussed the responsibilities of the school in the post-war period, stressing the need of deepening and broadenting of the citizen's knowledge, understanding and technical skill, (Freeter personsibilities placed on the continued of the School of Education, University of the district and we are hoping for continued spell of good weather.

Mr. H. Pike, an old-timer in the district and we are hoping for continued spell of good weather.

Mr. H. Pike, an old-timer in the district and we are hoping for continued spell of good weather. ing of the citizen's knowledge, understanding and technical skill.
Greater responsibilities placed on
the nation's schools will necessitate increased expenditure, and it
is genearlly agreed among educational administrators that one
"must" for post-war education in
Canada is financial aid from the
federal government. Of all the
speakers who have appeared before teachers' conventions in
Wainwright, Dr. Argue is one of
the most forceful and lucid.
The last item on the programme

Kinsella Kernels

& Brown" Garage.

Visitors to the city this past week included Mr. and Mrs. R. Witton, Mr. and Mrs. P. J. Wangness, Mrs. C. Smogard, Mr. and Mrs. Lowney, Mrs. E. Mark, Mrs. Brooks, Mrs. J. Beschell, Mrs. Mc-Kie, Mr. C. McAdams and Mrs. A. Johnston.

Miss Marion Felch who has been visiting Mrs. Brooks for the past few months has returned to the States.

Mr. H. Pike, an old-timer in the Kinsella district, passed away last Monday, November 1st, at the Viking Hospital. The funeral ser-vice was held in the Kinsella church on Wednesday, November 3rd.

ITEMS OF INTEREST IN THE WORLD OF FOODSTUFFS

Canada is financial aid from the federal government. Of all shepackers who have appeared before teachers' conventions of the most forceful and lucid.

The last item on the programme was the annual business meeting of the Local. During the meeting of the Local. President, Mr. G. C. Welsh, Edgerton; Vice-President, Mr. G. S. Reeds, Irma; Secy-Treas, Mr. D. H. Gunn, Irma.

Two members of the executive, the councillors from the Chauvin, and Wainwright Sub-Locals, will be elected later.

V

Merchant Marine

Upwards of sixty thousand Canadian sailors, and other thousands of Merchant Marine, through foul and fair weather, through the terrible dangers of the sea and lurking U-boat, keep the life lines of the United Nations open, and carry the munitions and food to the armies that will bring Victory for democracy.

These men give unselfishly of

food to the armies that will bring Victory for democracy.

These men give unselfishly of their services to the Nation so that the way of life that we have enjoyed—that way of life which our forefathers have bequeathed to us—is maintained. They suffer tremendous hardship, face perils that would daunt the hardiest spirit, and yet at the call of duty they go down to the sea in ships, many of them never to return.

November 21 and 27th is Navy Week, and we are celebrating the deeds accomplished by the Canadian Navy. We are paying tribute to the sacrifice which they have made and continue daily to make so that freedom may reign throughout the earth.

And you are asked to help the men of the Canadian Navy. The men who go daily on the great waters in the little, uncomfortable ships, daring ships that have faced high hazard and have met desperate ends, and have done their job with a courage and devotion of which even Nelson would be

W. I. MEETING

The November meeting was held at the home of Mrs. Milne. Plans were made for the annual bazaar which is to be held Saturday, proud.

Week by week little ships, destroyers corvette s and mine sweepers, are slipping down the sweepers, are slipping down the ways that lead to battle on great waters. Always there have been men waiting to man these ships. In place of 2,000 men or the Canadian Navy at the outbreak of the war there are now upwards of 60,000 men in the Navy.

These men of the sea man the ships.

As the mount business meeting of the Local. During the meeting of the Local and Wainwright Sub-Locals, will be elected later.

A faint garlic flavor improves French dressing or mayonnaise to be used with vegetable, meat or fish salads. Peel a clove of garlic, leave it in the dressing ten minutes, then remove.

World of Wheat

by H. G. L. Strange Director, Research Department Searle Grain Company, Ltd.

THE WORK OF THE SCIENTIST

THE WORK OF THE SCIENTIST

Our farmers and all of us owe a great debt to our talented Canadian scientists in agriculture. It is, I think, safe to Say that if our Canadian farmers were using today those varieties of grains and breeds of livestock that were common forty years ago, they would have hardly anything to export. The agricultural scientist has produced better breeds of livestock higher yielding and higher quality of grains, that have helped our farmers to survive, and now to the long list of these varieties which have been boons to our farmers, comes the promise in a year or so of a new wheat that will be resistant to saw-flies, and which, therefore, will save our farmers millions of dollars a year in losses. The loss this year from saw-fly damage is estimated to amount to 20 million bushels of wheat).

How valuable is the work of these scientists: And we they are

amount to 20 million bushels of wheat).

How valuable is the work of these scientists: And yet they are umong the lowest paid men belonging to the occupation that requires the high talents and the expensive education that these men must have. I for one suggest that it is high time their employers—the Dominion and Provincial Governments — reconsider sympathetitically the remuneration these so valuable friends of the farmers are receiving, for we must depend upon them to introduce still better varieties and breeds to compete with the advances being made by our competitors for world markets.

FARMERS AND FARM-WORKERS who can be spared from the farm are URGENTLY NEEDED for other ESSENTIAL WORK during winter months:

(Lumbering, Mining, Packing-Plants, Track Maintenance) Consult your District Agriculturist or Local Labor Representative . . .

DOM.-PROV. FARM LABOR PROGRAM

CHRISTMAS December 29th this Year?

Certainly we'll have Christmas this year on the same day as usual, December 25th. But what is Christmas what is Christmas without gifts and remembrances. And if these arrive late or maybe not at all—what happens then?

what happens then?

More than ever this year we urge you to
DO YOUR CHRISTMAS ORDERING
EARLY—If at all possible do it RIGHT
AWAY. Wartime conditions will place all
facilities under an abnormal strain later on.
A great deal of merchandise will be difficult
or altogether impossible to secure. Mail
and transportation service will be operating under tremendous pressure. This year
—as a patriotic gesture as much as for
your own greater satisfaction—

Do Your Christmas Shopping Early!

T. EATON COMITED

The Course to Follow

Grain congestion is very severe at the present time. The small initial wheat delivery quota amply demonstrates the truth of this statement.

In face of such conditions it is difficult for farmers to direct their limited quotas to the elevators of their choice, which in most cases is the Pool Elevators. The Pool Elevator system acknowledges that the problem is a complicated one. To tell the farmers to deliver all their grain to Pool elevators when space is so limited is simply not common sense.

But the Wheat Pool does suggest that where farmers have any selection in the matter the Pool elevators should get the preference. Furthermore, if you are compelled by unavoidable circumstances to deliver your grain elsewhere, do not forget that you should return to Pool elevators whenever the situation clears up and the congestion is relieved.

Mrs. M. D. Askin feels very grateful and wishes to thank all neighbors and friends for their kindness shown her while she was alone, for six weeks, and also for the fine "eats" that were brought to her home. Mr. Askin returned Tuesday from an operation in one of the Edmonton hispitals, and feels quite improved.

Born to Mr. and Mrs. /E. R. Wells at the Manville Hospital on November 9th—a son.

Mr. M. D. Askin arrived home last Tuesday from the University Hospital, where he received eye treatment.

On October 29th a social evening and dance was held at Albert School. It was in aid of the Christmas Fund, and a very good crowd turned out. Mrs. Percy Miller won the ladies' prize in whist, and Mr. L. Barss won the mens prize. Mr. Ivan Currie held the lucky ticket on a raffle of a Pyrex Casserole. We wish to thank everyone who helped to make the evening such a success.

CHECK CAR BRAKES, AVOID CRASHES

Careful check of brakes and other car equipment at this season of the year is urged by the Alberta Motor Association. This will mean the elimination of many possible

the elimination of many possible accidents.

Before winter comes, drivers should see that their car brakes are in proper condition. It was recalled that a recent car testing campaign in one Alberta centre showed that 50 per cent of the car brakes were in poor condition. Many were in a condition that was possitively dangerous.

"Drivers seldom realize that a speed of 35 miles per hour means that they are rolling over the street or highway at about 50 feet per second. That means it takes well over 100 feet to stop a car at that speed, even with good brakes on a dry pavement or

brakes on a dry pavement or road," said an official of the

THE CHARTERED BANKS of Canada keep abreast of the Dominion's expanding needs.

Six times since 1870 the Bank Act under which the Chartered Banks operate has been revised by parliament-six times in that period the activities of the banks have been carefully scrutinized by the people's representatives.

Every-ten years the Bank Act has been thus revised. Each one of the six decennial revisions has contributed much to the evolution of the banking system to meet the expanding needs of a developing Dominion.

In 1934 the sixth revision of the Bank Act was made. Fifty members of the House of Commons

made up the committee, which examined witnesses-among them bank officers, government officials and reformers - and studied exhibits filed by various individuals and organizations. Findings were submitted to the House, and later that year the Bank Act was revised in many important particulars,

Through democratic enquiry and decision, the Canadian banking system has grown and been adjusted to meet the needs of the people, providing a depository for savings and a sound basis for Canada's free economic development.

THE CHARTERED BANKS OF CANADA
